*Disrupted* Dan Lyons, 2016-05-26 Dan Lyons was Technology Editor at Newsweek Magazine for years, a magazine writer at the top of his profession. One Friday morning he received a phone call: his job no longer existed. Fifty years old and with a wife and two young kids, Dan was unemployed and facing financial oblivion. Then an idea hit. Dan had long reported on Silicon Valley and the tech explosion. Why not join it? HubSpot, a Boston start-up, was flush with \$100 million in venture capital. They offered Dan a pile of stock options for the nebulous role of marketing fellow. What could possibly go wrong? What follows is a hilarious and excoriating account of Dan's time at the start-up and a revealing window onto the dysfunctional culture that prevails in a world flush with cash and devoid of experience. Filled with stories of meaningless jargon, teddy bears at meetings, push-up competitions and all-night parties, this uproarious tale is also a trenchant analysis of the dysfunctional start-up world, a de facto conspiracy between those who start companies and those who fund them. It is a world where bad ideas are rewarded with hefty investments, where companies blow money lavishing perks on their post-collegiate workforces, and where everybody is trying to hang on just long enough to cash out with a fortune.

**CEO Branding** Marc Fetscherin, 2015-06-19 CEO Branding advances our understanding of the importance and impact that CEOs have on companies. In recent years, there has been a growing body of interdisciplinary literature on this powerful aspect of branding, and Fetscherin has invited a leading panel of international scholars and practitioners to contribute original chapters in their area of expertise. The book introduces the concept of the CEO as a brand, and outlines the 4Ps of this branding mix - the CEO (person), personality, prestige (reputation), and performance. It discusses the CEO branding process, and demonstrates the many ways in which this 'human brand' affects the company in financial terms (such as performance, profit, and stock returns), as well as non-financial terms (reputation, trust, and firm strategy). The book also includes 'lessons learned' and many examples that illustrate how companies can measure and manage the CEO brand. This comprehensive, authoritative volume will give students, researchers, marketing and communication managers, and CEOs themselves a thorough understanding of all aspects of the CEO brand. A must read for any CEO who is serious about developing, managing and measuring their own brand. For more information, visit [www.ceobranding.org](http://www.ceobranding.org)

**SPIN® -Selling** Neil Rackham,2020-04-28 True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

**Youtility** Jay Baer,2013-06-27 The difference between helping and selling is just two letters If you're wondering how to make your products seem more exciting online, you're asking the wrong question. To win attention these days you must ask a different question: How can we help? Jay Baer's Youtility offers a new approach that cuts through the clutter: marketing that is truly, inherently useful. If you sell something, you make a customer today, but if you genuinely help someone, you create a customer for life.

**Conversational Marketing** David Cancel, Dave Gerhardt, 2019-01-30 Real-time conversations turn leads into customers. *Conversational Marketing* is the definitive guide to generating better leads and closing more sales. Traditional sales and marketing methods have failed to keep pace with the way modern, internet-savvy consumers purchase goods and services. Modern messaging apps, which allow for real-time conversations and instant feedback, have transformed the way we interact in our personal and professional lives, yet most businesses still rely on 20th century technology to communicate with 21st century customers. Online forms, email inquiries, and follow-up sales calls don't provide the immediacy that modern consumers expect. Conversational marketing and sales are part of a new methodology centered around real-time, one-on-one conversations with customers via chatbots and messaging. By allowing your business to communicate with customers in real time—when it's most convenient for them—conversational marketing improves the customer experience, generates more leads, and helps you convert more leads into customers. *Conversational Marketing* pioneers David Cancel and Dave Gerhardt explain how to: Merge inbound and outbound tactics into a more productive dialog with customers. Integrate conversational marketing techniques into your existing sales and marketing workflow. Face-to-face meetings, phone calls, and email exchanges remain important to customer relations, but adding a layer of immediate, individual conversation drives the customer experience—and sales—sky-high.
